

## College Selection and Application Processes

- Each senior is expected to apply online to at least five colleges by November 1. **College deadlines are the responsibility of the student.**
- **Transcript and supplemental information requests must be submitted to the college counselor at least two weeks prior to the deadline. It is highly recommended that the student confirm application status with the college/university within 2-4 weeks after submitting the application for admission.**
- The student is responsible for contacting the SAT/ACT office(s) and arranging to have official scores mailed to the colleges of choice.
- Trident Technical College will mail an official transcript of dual credit courses directly to the college/university upon request.
- College representatives will visit FBS throughout the fall of each year. Specifics will be announced in the College Counseling Monthly Update. Junior and Senior students who are interested in a particular college briefing must make arrangements with the classroom teachers **prior** to the scheduled meeting.
- For statistical purposes, please notify the college counselor of all acceptances and financial aid (scholarships, grants, loans) offers.
- The student is reminded that college acceptances are provisional. It is expected that the current level of academic achievement will be maintained.
